

# CRC FOOD GRADE MACHINE OIL

## Keep Your Equipment Running Smoothly.

Designed for the demands of food processing environments, this high-performance lubricant penetrates deep to break down rust, scale, dirt, and corrosion—freeing stuck components and restoring motion quickly. Its virtually colorless and odorless, non-silicone formula ensures clean, safe application. Meets FDA Regulation 21 CFR 178.3570, making it the trusted choice for incidental food contact areas where compliance and reliability are non-negotiable.

### USE ON:

- ▲ Food Processing Equipment Exposed to Food Products Including:
  - ▲ Scales, Bottlers, Racks, Mixers, and Fillers
  - ▲ Fans, Chutes, Conveyors, and Rails
  - ▲ Carts and Galleys
  - ▲ Ovens, Stoves, and Freezers

- ▲ **NSF H1 Registered:** Approved for incidental food contact.
- ▲ **Perma-Lock® 2-Way Integrated Actuator:** Allows for both broad and precision spray applications without detaching.
- ▲ **Penetrating Action:** Loosens rust, scale, dirt, and corrosion to free stuck parts and fasteners.
- ▲ **Zero VOC Formula:** Compliant with VOC regulations.
- ▲ **Reduces Downtime:** Quickly frees seized components, improving maintenance efficiency.
- ▲ **Protects Against Wear and Corrosion:** Helps extend equipment life and performance.
