

## CRC FOOD GRADE SILICONE

### Unlock smoother operations in food processing.

Engineered to deliver exceptional performance where it matters most, CRC Food Grade Silicone high-quality lubricant forms a clear, odorless, non-staining film that reduces friction, binding, and sticking in metal-to-non-metal applications. Whether you're streamlining production or maintaining equipment, this silicone spray is your go-to solution for clean, efficient, and compliant lubrication.

#### USE ON:

- ▲ Food Processing Equipment Exposed to Food Products Including:
  - ▲ Chutes, Guides, Rails, and Conveyors
  - ▲ Bottling Machinery, Ovens, and Freezers
  - ▲ Saws and Tools
  - ▲ Linkages, Locks, Pulleys, and Timers
  - ▲ Vending Machines, Coin Mechanisms, and Ceramic Insulators

- ▲ **NSF H1 Registered:** Safe for incidental food contact, meeting FDA Regulation 21 CFR 178.3570.
- ▲ **Perma-Lock® 2-Way Actuator:** Allows for both broad and precision spray applications without detaching.
- ▲ **Excellent Release Agent:** Useful in molding and packaging processes to prevent sticking.
- ▲ **Wide Temperature Range:** Effective from -40°F to 400°F (-40°C to 204°C), suitable for high-heat applications.
- ▲ **Multi-Surface Compatibility:** Works on chutes, guides, rails, conveyors, ovens, freezers, and more.
