

## 1. Identification

Product identifier	API/GL-5 New Generation™ Limited Slip Gear Oil 80W90 - 32 fl oz
Other means of identification	
Product Code	No. SL2472 (Item# 1007816)
Recommended use	Gear oil
Recommended restrictions	None known.
Manufacturer/Importer/Supplier	/Distributor information
Manufactured or sold by:	
Company name	CRC Industries, Inc.
Address	885 Louis Dr.
	Warminster, PA 18974 US
Telephone	
General Information	215-674-4300
Technical Assistance	800-521-3168
Customer Service	800-272-4620
24-Hour Emergency	800-424-9300 (US)
(CHEMTREC) Website	www.crcindustries.com
2. Hazard(s) identificatior	1
Physical hazards	Not classified.
Health hazards	Not classified.
Environmental hazards	Not classified.
OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	The mixture does not meet the criteria for classification.
Precautionary statement	
Prevention	Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air supply during use and while product is drying. Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

## 3. Composition/information on ingredients

#### Mixtures

Chemical name	Common name and synonyms	CAS number	%
mineral oil		Mixture	60 - 80
Specific chemical identity and/or percentage of composition has been withheld as a trade secret.			

### 4. First-aid measures

Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. If inhalation of a large amount does occur, call a physician immediately.

Occupational exposure limits	
8. Exposure controls/pers	
Conditions for safe storage, including any incompatibilities	environmental contaminated clothing before reduce. Ose appropriate container to avoid environmental contamination. For product usage instructions, see the product label. Keep away from heat and sources of ignition. Store in a cool, dry place out of direct sunlight. Store in a well-ventilated place. Keep container tightly closed. Store away from incompatible materials (see Section 10 of the SDS).
Precautions for safe handling	Wear appropriate personal protective equipment. Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Use only in well-ventilated areas. When using, do not eat, drink or smoke. Wash contaminated clothing before reuse. Use appropriate container to avoid
7. Handling and storage	
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS Prevent entry into waterways, sewer, basements or confined areas. Avoid discharge into drains, water courses or onto the ground.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
Methods and materials for	The product is immiscible with water and will spread on the water surface.
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see section 8 of the SDS.
6. Accidental release mea	sures
General fire hazards	No unusual fire or explosion hazards noted.
Fire fighting equipment/instructions	Cool containers exposed to heat with water spray and remove container, if no risk is involved.
Special protective equipment and precautions for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Unsuitable extinguishing media	None known.
Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.
5. Fire-fighting measures	
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
Indication of immediate medical attention and special treatment needed	Treat symptomatically.
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.
Ingestion	Rinse mouth. Drink 1 or 2 glasses of water. Do not induce vomiting without advice from poison control center. Never give anything by mouth to a victim who is unconscious or is having convulsions. Get medical attention if symptoms occur. If ingestion of a large amount does occur, call a poison control center immediately.
Eye contact	Rinse immediately with plenty of water, also under the eyelids. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.

Components	Туре	Value
mineral oil	TWA	5 mg/m3

ACGIH Components	Туре	Value	Form		
mineral oil	TWA	5 mg/m3	Inhalable fraction		
U.S NIOSH					
Components	Туре	Value	Form		
mineral oil	STEL	10 mg/m3	Mist		
	TWA	5 mg/m3	Mist		
Biological limit values	No biological exposure limits noted for	or the ingredient(s).			
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.				
Individual protection measure	s, such as personal protective equipm	ent			
Eye/face protection	Wear safety glasses with side shield	s (or goggles).			
Skin protection					
Hand protection	Wear protective gloves such as: Nitrile. Polyvinyl chloride (PVC).				
Other	Wear suitable protective clothing.				
Respiratory protection	If engineering controls are not feasib NIOSH-approved cartridge respirator breathing apparatus in confined space determine actual employee exposure	with an organic vapor cartridges and for emergencies. Air m	ge. Use a self-contained		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.				
General hygiene considerations			Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		

### 9. Physical and chemical properties

-	
Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Amber.
Odor	Mild petroleum.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	302 °F (150 °C) Pensky-Martens Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	< 1 mm Hg
Vapor density	> 1 (air = 1)
Relative density	0.87 - 0.89
Solubility(ies)	
Solubility (water)	Insoluble.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.

Decomposition temperature	Not available.	
Viscosity	133 mm²/s (104 °F (40 °C))	
Percent volatile	> 90 %	

# 10. Stability and reactivity

•	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Carbon oxides.

# 11. Toxicological information

### Information on likely routes of exposure

Inhalation	Prolonged or excessive inhalation may cause respiratory tract irritation.
Skin contact	Prolonged skin contact may cause temporary irritation. Repeated exposure may cause skin dryness or cracking.
Eye contact	Direct contact with eyes may cause temporary irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.

### Information on toxicological effects
