

INDUSTRIAL

CRC Dielectric Grease

Protect electrical connections with confidence.

Our non-curing silicone dielectric grease seals, lubricates, and insulates to keep electrical components performing at their best—even in harsh environments. It waterproofs connections to prevent arcing caused by moisture, salt spray, and contaminants, while improving reliability in extreme temperatures and adverse weather. Featuring the precision Select-a-BEAD® Nozzle for controlled application and NSF H1 registration for food industry compliance, this versatile solution ensures long-lasting protection and peak electrical performance.

Features & Benefits:

- **Non-curing silicone compound:** Seals, lubricates, protects, and insulates electrical components without hardening or melting.
- **Working temperature range:** -70°F to 400°F.
- **Waterproofs electrical connections:** Prevents moisture intrusion and protects against corrosion and arcing.
- **Dielectric Strength:** >450 Volts/Mil.
- **Rubber and plastic safe:** Will not degrade seals, gaskets, or plastic parts.
- **Select-a-BEAD® nozzle:** Allows precise bead width for clean application.

Use On:

- Electrical Panels
- Outdoor Lighting
- Scoreboards
- Traffic Lights
- High Voltage Poles
- Transformers
- Disconnects
- Switching Mechanisms
- Electrical Contacts
- Spark Plugs
- Battery Terminals
- Fasteners
- O-Rings
- Rubber
- Plastic Parts

PART NO.	CASE/ORDER#	PACKAGE	NET WT.	UNITS PER CASE
02085	1003198	Pressurized Tube with Select-a-BEAD® Nozzle	3.3 wt. oz.	12

CRC Industries, Inc. is a global leader in the production of specialty products and formulations for the do-it-yourselfer and maintenance professional, serving the automotive, industrial, electrical, marine, heavy truck, hardware, and aviation markets. CRC trademarked brands include: CRC®, Brakleen®, Evapo-Rust®, K&W®, Marykate®, SmartWasher®, Sta-Lube®, and Weld-Aid®.

TOGETHER, WE GET IT DONE.®
