

CRC FOOD GRADE CHAIN LUBE

Keep your operations running smoothly.

Our Food Grade Chain Lube is formulated with a premium blend of synthetic lubricants and mineral oil—engineered to deliver superior lubrication for roller drives and conveyor chains. This high-performance formula penetrates deep to reduce friction and wear, ensuring optimal protection for moving parts. NSF H1 rated for incidental food contact, it's the trusted choice for food processing environments where reliability and compliance matter most.

USE ON:

- ▲ Food Processing Equipment Exposed to Food Products Including:
 - ▲ Conveyor Chains
 - ▲ Packaging Equipment
 - ▲ Hoist Chains
 - ▲ Link and Roller Assemblies
 - ▲ Forklift Trucks
 - ▲ Many Other Industrial Applications

- ▲ **NSF H1 Registered:** Safe for incidental food contact, meeting FDA Regulation 21 CFR 178.3570.
- ▲ **Perma-Lock® 2-Way Integrated Actuator:** Allows for both broad and precision spray applications without detaching.
- ▲ **Synthetic and Mineral Oil Blend:** Provides superior lubrication for roller drive and conveyor chains.
- ▲ **Foaming Action:** Ensures deep penetration into chain links, pins, rollers, and sprockets without messy overspray.
- ▲ **Reduces Friction and Wear:** Minimizes metal fatigue and helps extend equipment life.
