

## Super Degreaser Plus

134a is going away in general purpose degreasers\*

The EPA has determined that HFC-134a is now unacceptable in certain types of products due to its global warming potential. In order to be compliant, CRC has reformulated our popular Super Degreaser part #03110.

### Use On:

- ▲ Air Tool
- ▲ Mechanical Brakes
- ▲ Clutches and Motors
- ▲ Chains and Wire Ropes
- ▲ Dies and Molds
- ▲ Parts and Bearings
- ▲ Generators and Compressors

- ▲ More usable solvent per can
- ▲ Non-chlorinated, non-corrosive and non-staining
- ▲ No flash point
- ▲ High cleaning strength
- ▲ Dries fast, leaves no residue

\*The EPA ruled the use of 134a is still acceptable in 16 categories including electrical equipment, aircraft maintenance, mold release agents and duster sprays used on energized electrical equipment.

CRC Part #	Container Size	Units Per Case	Propellant	KB Value
03109	20 oz aerosol	12	Carbon Dioxide	100
