

1-TANK Power Renew® for Gasoline

Treat your engine to 1-TANK POWER RENEW and get back the power, performance and MPG you've been missing!

Most fuel additives on the market need to be used with every fill up in order to deliver the claims on the bottle. CRC 1-TANK POWER RENEW contains the highest concentration of Polyether Amine (PEA) detergency on the market to provide unbeatable one-tank cleanup with proven test results!

PROVEN RESULTS after the FIRST use!

Robust one-tank cleanup in 100% of tested high-mileage vehicles.

- ▶ **97%** Total Power Recovery - **PROVEN!**
- ▶ **100%** Misfire Recovery - **PROVEN!**
- ▶ **99%** Injector Flow Improvement - **PROVEN!**
- ▶ Average **5.7%** MPG Increase - **PROVEN!**

Money Back Guarantee!

INTENSIVE Fuel System Cleanup Lasts 4,000 Miles!

Why is a Complete Fuel System Cleanup Needed? Fuel quality differs from pump to pump and, over time, contaminants in fuels will cause carbon deposit buildup throughout the fuel system. Carbon deposits harden on intake valves, piston heads, cylinder walls and injectors and lead to decreased MPG, hesitation, stalling, pre-ignition, loss of power and excess exhaust emissions. Today's engines are so finely tuned that even microscopic deposit formations can cause performance issues.

Single Use Funnel for easy access to **CAPLESS GAS TANKS**, Ships Complete with Counter Display!

Real Tests • Real Data • Real Results

CRC 1-TANK POWER RENEW attacks and removes carbon deposits from all areas of the fuel system after just one dose.

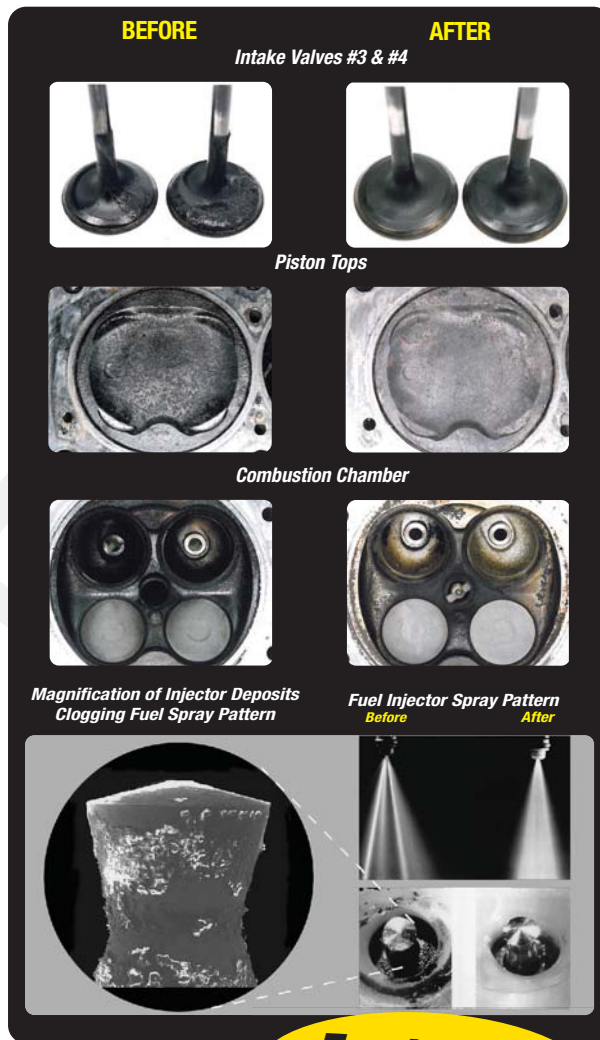

DEEP CLEANS:

- ▲ Indirect AND Direct Fuel Injectors – just one inefficient injector will affect overall engine performance and MPG
- ▲ Intake Valves
- ▲ Combustion Chambers
- ▲ Emissions Control Systems
- ▲ Carburetors
- ▲ Intake Ports
- ▲ Cylinder Heads
- ▲ Piston Tops
- ▲ The ENTIRE fuel system

Restores fuel system to LIKE-NEW:

- ▲ Reduces engine knock, ping and run-on
- ▲ Restores lost engine performance
- ▲ Reduces the need for higher octane fuels
- ▲ Intensive deposit cleanup allows for easier cold starts, faster acceleration and better airflow
- ▲ Works in gasoline and ethanol blends
- ▲ Features G2P® TECHNOLOGY for cleaner emissions!
