# Identify your vehicle's leak

K&W offers a complete line of Stop Leak products for aging vehicles that will get you back on the road fast. K&W leak solutions are affordable and effective alternatives to costly repairs and parts replacements. We know that sometimes you just need to keep an older car running, and the cost of the repair can exceed the value of the vehicle itself. When used properly and in the right circumstances, K&W Stop Leak products can save you both time and money!

Use the diagram below to help identify your type of leak.

## Common Symptoms

Bubbles in the recovery tank, venting from the cap 

**HEAD GASKET & BLOCK**

Temp. warning light on or temp. gauge is at high level 

**HEAD GASKET & BLOCK**

Greasy film on inside of windshield, worse with defrost turned on 

**HEAD GASKET & BLOCK**

Milky or milkshake-like substance on your oil fill cap or on the dipstick 

**HEAD GASKET & BLOCK**

Smell a "sweet" or "funky" odor inside or outside your car 

**HEAD GASKET & BLOCK**

Colored liquid dripping on passenger floor from under dash 

**HEAD GASKET & BLOCK**

Oily smelling smoke from under hood after vehicle is shut off 

**ENGINE**

## Leaks

Bright colored fluid on the ground, slippery to the touch; compare to coolant in recovery tank 

**HEAD GASKET & BLOCK**

Oily black/brown puddle under engine 

**ENGINE**

Excess oil usage between oil changes resulting in low oil level 

**ENGINE**

Oily, pink, red or clear fluid leaking toward the front, behind the front wheels and forward 

**POWER STEERING**

Oily red or pink fluid under vehicle with an automatic transmission 

**AUTOMATIC TRANSMISSION**

## Smoke

Green water dripping from exhaust with white "smoke" or steam when warm 

**HEAD GASKET & BLOCK**

Puff of blue smoke on start-up or excess smoke on deceleration 

**ENGINE**

## Noises

Ticking or knocking sounds coming from the engine 

**ENGINE**

Whining sound and vibration when steering the vehicle 

**POWER STEERING**

Banging, hard shifting, slipping 

**AUTOMATIC TRANSMISSION**

Not just for passenger cars! K&W Stop Leak products may be used in gasoline and diesel engines, including cars, trucks, buses, heavy trucks, construction and farm equipment.

# Choose the right Stop Leak product

Once you have determined the type of leak, use this guide to help select which product is best for you. Whether you are a “weekend mechanic” or a savvy professional, K&W has a cost-effective solution to repair your vehicle’s leak. For head gasket and block repairs, choose one of three options suited to your specific situation and skill level.

# Get the best results

To ensure that you get the best results, it is very important to read all label instructions thoroughly before using any products in your vehicle. K&W products are proven to perform, and we guarantee results with our Money Back Guarantees.

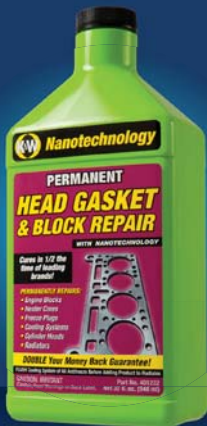

## FiberLock<sup>®</sup> Head Gasket & Block Repair

Easy Pour and Go Formula!  
Permanent • Under 30 Minute Repair  
Double Money Back Guarantee

- Permanently fixes head gaskets, engine blocks, cooling systems and cylinder heads
  - Contains 3 unique technologies
    - Military-Strength Fibers create multi-layer repair over crack with a web-like weave
    - Nanotechnology allows for smallest cracks and crevices to be fixed
    - Cool-X Conditioner lowers operating temperature as it circulates through cooling system
  - Seals larger holes with less fluid loss than competitive products as proven by Independent lab test (ASTM D3147)
  - Works with all antifreeze or plain water
- 401224-6 32 FL. OZ.

## Permanent Head Gasket & Block Repair

With NANOTECHNOLOGY  
Permanent • Professional Repair  
Double Money Back Guarantee

- Nanotechnology provides the tightest molecular bond available; nanoparticles fill cracks and crevices in metals and plastics that other products can't
  - Flexible fibers maintain repair during expansion and contraction of cooling system
  - Does not rely on cooling system pressure to maintain a seal. Withstands extreme pressure and heat. Will not break away or wash out. Exceeds ASTM D6107.
  - Immediate permanent repair that cures in 1/2 the time of other leading brands
- 401232 32 FL. OZ.

## Block Seal Permanent Metallic<sup>™</sup> Block & Radiator Seal

Permanent • Professional Repair  
Money Back Guarantee

- Permanent molecular seal that's as strong as steel
  - Seals cracks & holes in cast iron and aluminum engine blocks, head gaskets, freeze plugs, and copper, aluminum and bi-material radiators & heater cores
  - For use in all water-cooled diesel and gasoline vehicles
  - Withstands extreme pressure and temperatures of a cooling system and will not wash away
  - Professional grade formula exceeds ASTM D6107 for effectively sealing leaks in cooling systems
- 401016 16 WT. OZ.

ENGINE

## Super Turbo™ Engine Oil Stop Leak

**Creates a Leak-Free System in 500 Miles or Less  
Stops Leaks, Restores and Reconditions Seals and Gaskets  
Money Back Guarantee**

- Stops engine oil leaks by rejuvenating worn or aged engine seals, valve cover gaskets, timing gear gaskets and other seals found in today's high-tech engines
- Compatible with all motor oils
- Easy to use

402715x6

15 FL. OZ.

POWER STEERING

## Steer-X® Power Steering Stop Leak

**Repairs Dried, Hardened and Shrunken Seals  
Money Back Guarantee**

- Quickly stops leaks in all domestic, imported and heavy-duty power steering systems
- Conditions internal components to protect against future leaks
- Renews worn rack and pinions

403015x6

15 FL. OZ.

AUTOMATIC TRANSMISSION

## Trans-X® Automatic Transmission Stop Leak & Tune Up

**Stops Slips, Fixes Leaks and Protects Against Future Wear  
Double Money Back Guarantee**

- Effectively repairs leaks in automatic transmissions
- Prevents premature failure, future leaks and extends transmission life
- Powerful cleaning agents remove sludge, gums and varnish freeing valves for proper shifting
- Use to condition ATF and power steering fluids

402015x6

15 FL. OZ.

402033x6

32 FL. OZ.

## Is a Stop Leak product the right choice?

As your vehicle ages, so do its parts. You may find yourself in a situation where you have a leak in an older vehicle but don't want to spend the money to repair or replace the damaged part. However, Stop Leak products are not always the best solution for every repair. It depends upon the vehicle and the circumstances.

Here are some reasons why you may want to consider using a Stop Leak additive:

1. The repair exceeds the value of the vehicle.
2. The repair is too time-consuming.
3. The vehicle is very old and replacement parts are not easily available.
4. The leak is inaccessible or internal (ie. inside the engine).
5. You need an emergency repair so that you can drive the vehicle to a repair shop.

# More great products for your vehicle

Look for our full line of K&W products for repair and maintenance of your vehicle's cooling system, engine, transmission and power steering system.

**AUTOMATIC TRANSMISSION**

## Trans-X® 75K High Mileage Transmission Treatment

**Stops Slips and Fixes Leaks  
For Vehicles with 75,000 Miles or More  
Money Back Guarantee**

Scientifically developed for vehicles with 75,000 miles or more. Repairs leaks and extends transmission life. Stops and prevents leaks and restores smooth shifting.

402916x6 16 FL. OZ.

**COOLING SYSTEM**

## Instant Cooling System Stop Leak

**One-Step Permanent Repair  
Just Pour and Go  
Double Money Back Guarantee**

Permanently fixes radiators, head gaskets, engine blocks, heater cores, and freeze plugs. Won't clog cooling systems. Compatible with all types of antifreeze and coolant.

401214x6 15 FL. OZ.

**ENGINE**

## Fast Motor Flush™ 5 Minute Engine Cleaner

**Removes Power-Robbing Sludge, Gum,  
Rust and Varnish Deposits  
Money Back Guarantee**

Allows oil to flow freely to all parts of the engine. Freeing sticking valves, lifters and piston rings. For use in gas and diesel engines. Use before every oil change.

402718x6 30 FL. OZ.

**COOLING SYSTEM**

## RevitaCool™ Coolant Boost

**Superior Heat Transfer and  
Corrosion Protection  
Money Back Guarantee**

TEA surfactant technology prevents overheating, eliminates hot spots and reduces operating temperatures by up to 20°F for improved engine performance. Exceeds ASTM D2570 and ASTM D1384 corrosion tests. Prevents scale and electrolysis.

401322x6 15 FL. OZ.

**ENGINE**

## Air & Gas Leak Detector

**Instantly Identifies Leaks  
in Pressurized Systems**

Water-based formula, contains no oils, silicones or harmful solvents. Produces highly visible bubbles at the leak site. Won't dissipate like soap and water, non-flammable and odor free.

401118 18 WT. OZ.

**COOLING SYSTEM**

## 7 Minute Rapid Flush Cooling System Cleaner

**Revitalizes Cooling Efficiency  
7 Minute Treatment  
Money Back Guarantee**

Removes harmful rust, scum and oil, hard water scale. Contains no acids or chemicals harmful to radiators or cooling systems.

401320x6 15 FL. OZ.
