

## CRC Industries Position Statement Regarding EU Regulations: RoHS and REACH

### **RoHS:**

CRC Industries, Inc. evaluates our products against the requirements of Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment. Where products are determined to be in compliance with this directive, a RoHS Declaration of Conformity is issued and is made available on our website ([www.crcindustries.com](http://www.crcindustries.com)). We evaluate products that are commonly used in the electrical and electronics industries or as requested by our customers. Any product that does not have a certificate posted on the website may not have been evaluated. To request an evaluation and certificate for such a product, please contact CRC's Technical Services Line at 1-800-521-3168.

### **REACH:**

CRC Industries, Inc. monitors the Candidate List of Substances of Very High Concern for Authorization (SVHC's) published in accordance with Article 59(10) of the REACH Regulation. We evaluate our products for SVHC content based on information obtained from our raw material suppliers. CRC can answer questions related to SVHC content on a product by product basis.

CRC Industries, Inc. (Americas Group) does not export finished goods to the EU and has not registered products under REACH. CRC Industries is a global company with manufacturing facilities in the EU that supply EU customers. Please see our website ([www.crcindustries.com](http://www.crcindustries.com)) to connect to our international facilities and find products that are compliant for use in the EU.

Should any additional information be required, please contact Michelle Rudnick, Environmental, Health & Safety Manager at [mrudnick@crcindustries.com](mailto:mrudnick@crcindustries.com).
